After receiving the completed form, the Department Chair will review the candidate's request for a change in committee membership. If approved, the Department Chair will then send an email to the faculty being asked to leave the committee and those being asked to join, requesting that they communicate their agreement to the request via email. If they are not in agreement, they should communicate their disagreement to the Dissertation Chair and the Department Chair. The final decision on the proposed change will be made jointly by the Dissertation Chair and Department Chair.
